Definition of Developmental Education

Developmental education is a comprehensive, research-based framework that integrates the highest quality of instruction and support services to address the holistic needs of students, empowering learners to achieve academic, professional, and personal growth.

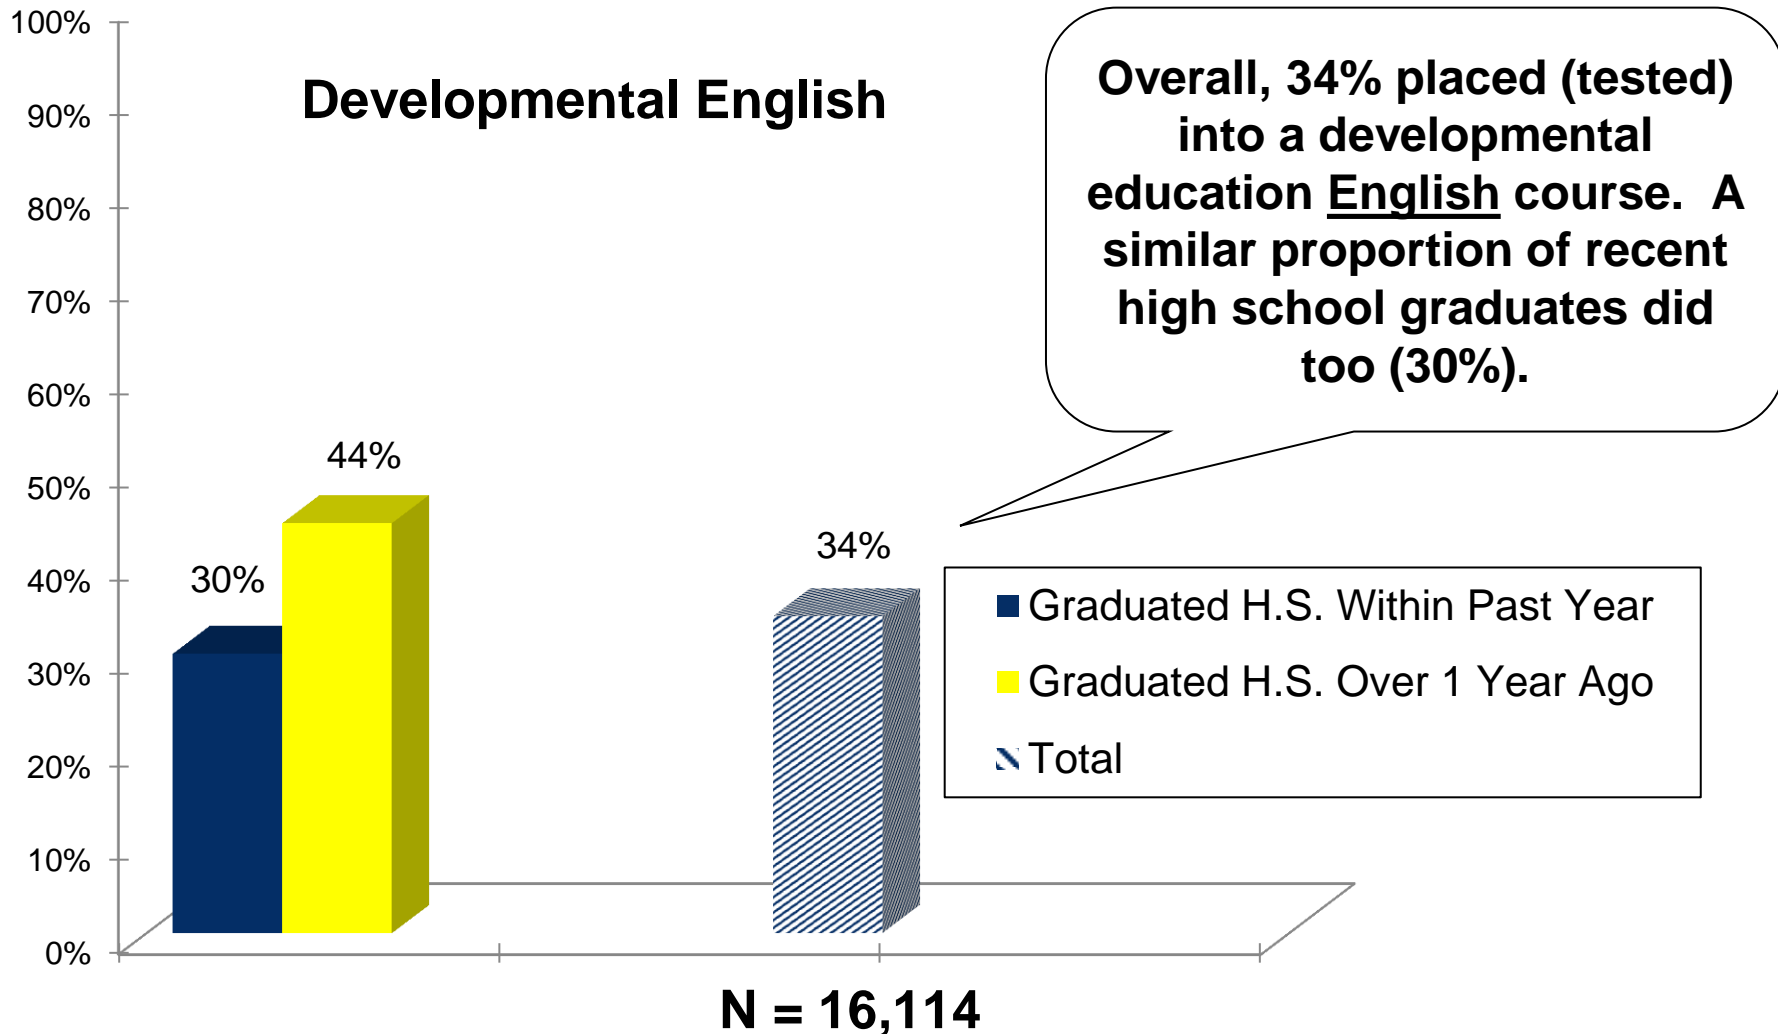

Developmental Placement Rates based on Test Scores

2012 OUTCOMES REPORT

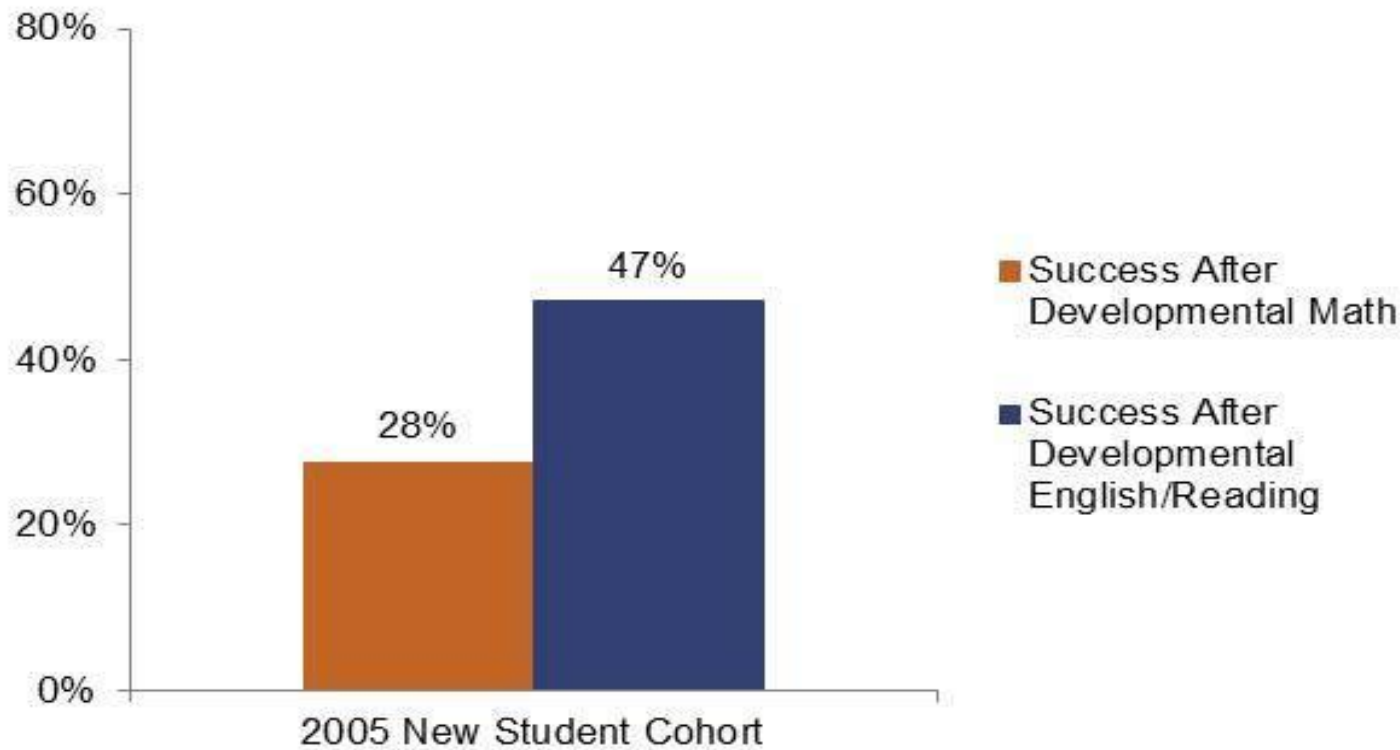

AZ CC Strategic Vision: Course Success Rates (within 2 years)

63 percent of student credit hours attempted in developmental courses were successfully completed (with a grade of A, B, C, or Pass).

AZ CC Strategic Vision: Success After Remediation (within 6 years)

After six years, 28% of developmental math learners successfully completed a college-level course in math.

47% of English or reading learners completed a college-level English course.

Thank you.
